

Mystery Company - Jack V. Braswell

Monday, 23 August 2010

Headers show this email is just a wee bit forged. Sender claims to be from gmail.com, but the headers show fhfgjghj.com (you try typing that carp!).

This dingbat doesn't mention a company name, and the job duties involve money muling, which will get you into a whole bunch of criminal hot water. Want your bank account frozen? Criminal record? Financial and identity theft? That's exactly what this "job" will do for you.

Keep looking, and stay safe!
